

# Maximising public and private strengths through partnership in developing renewable energies

**Klaus Preiser**

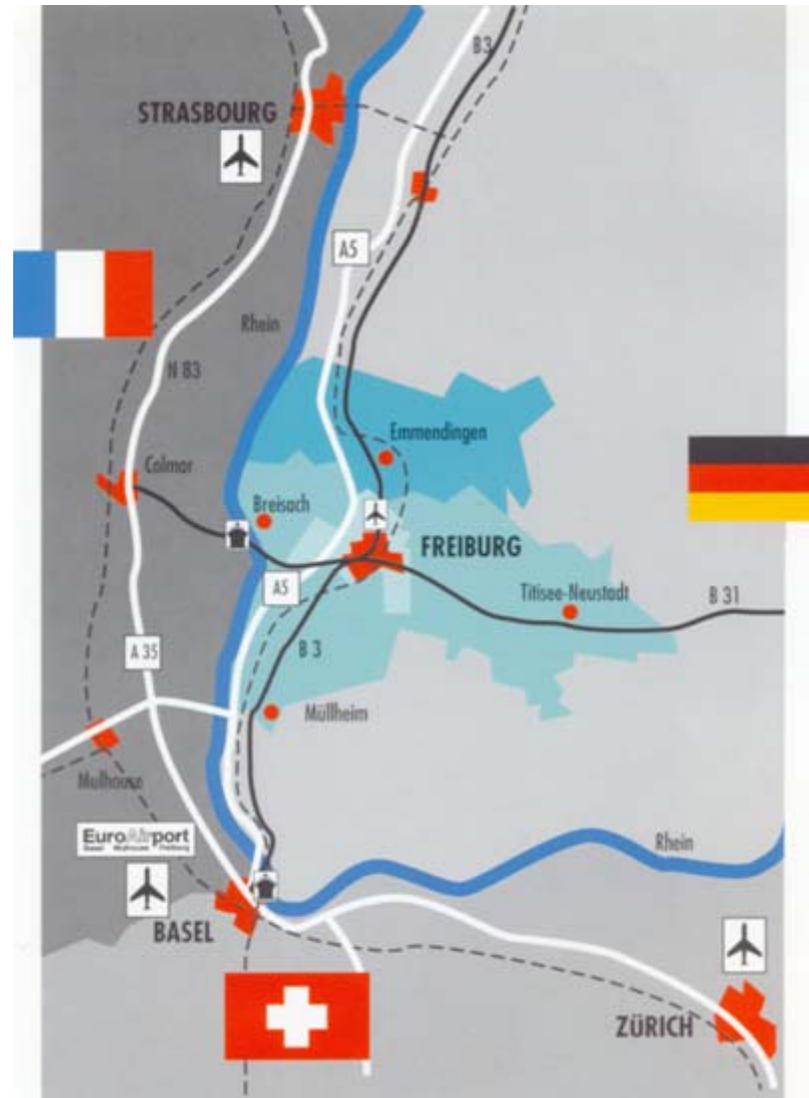

# Economic Region Freiburg

in the heart of Europe

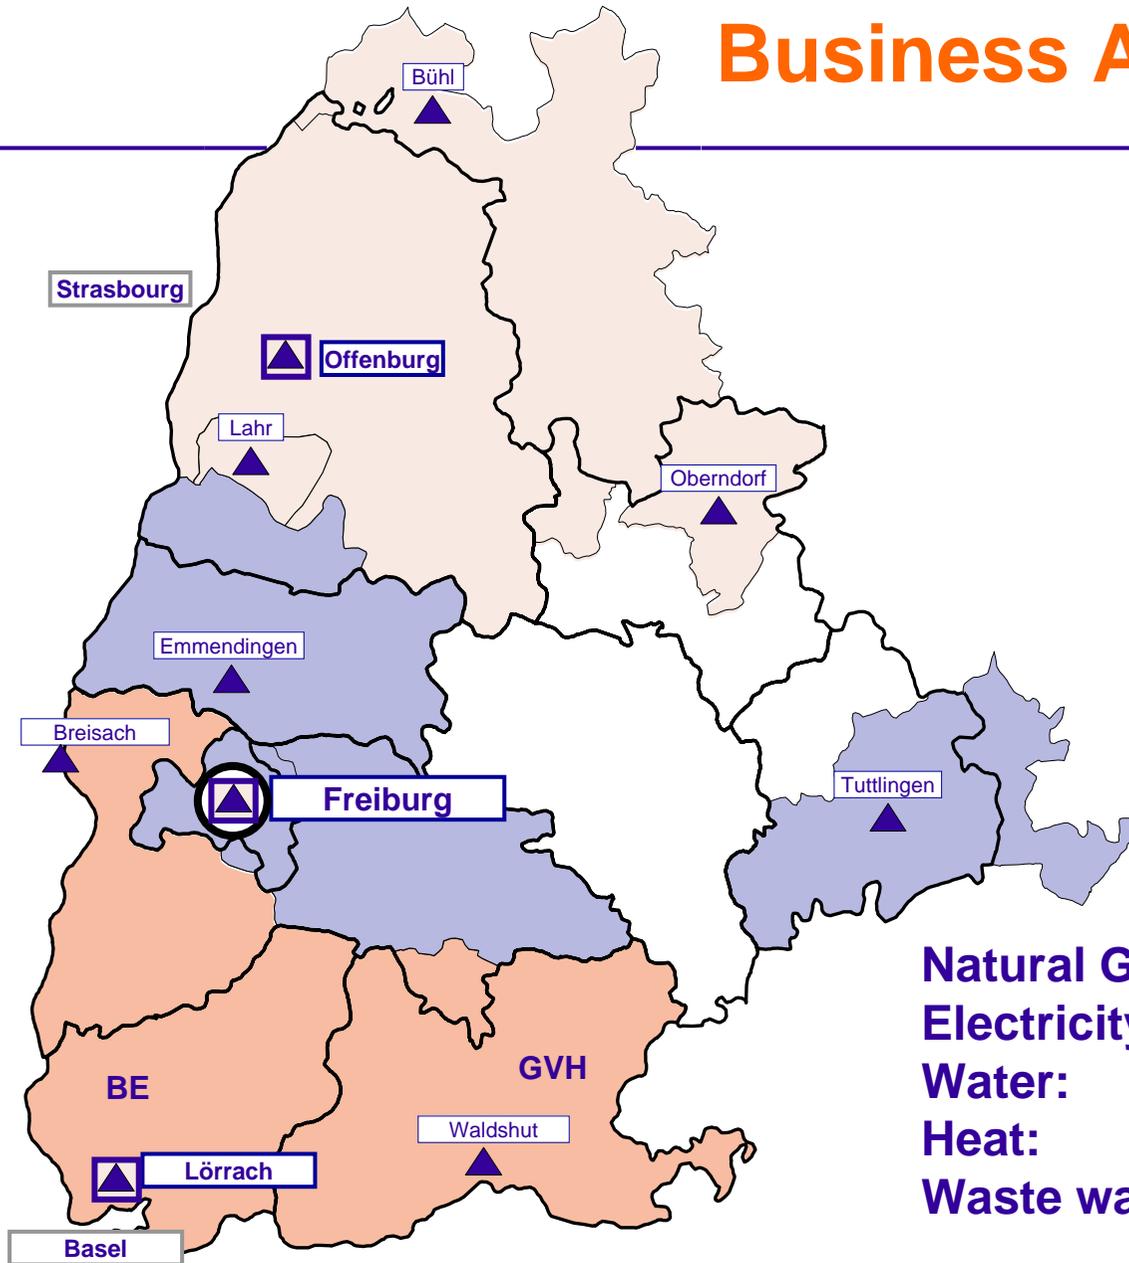

---

Stadt Freiburg

# Business Area

- Head Quarter Freiburg
- Regional center
- ▲ Service center

**Natural Gas: 600.000 people**  
**Electricity: 256.000 people**  
**Water: 250.000 people**  
**Heat: 40.000 people**  
**Waste water: 200.000 people**

# The badenova concept

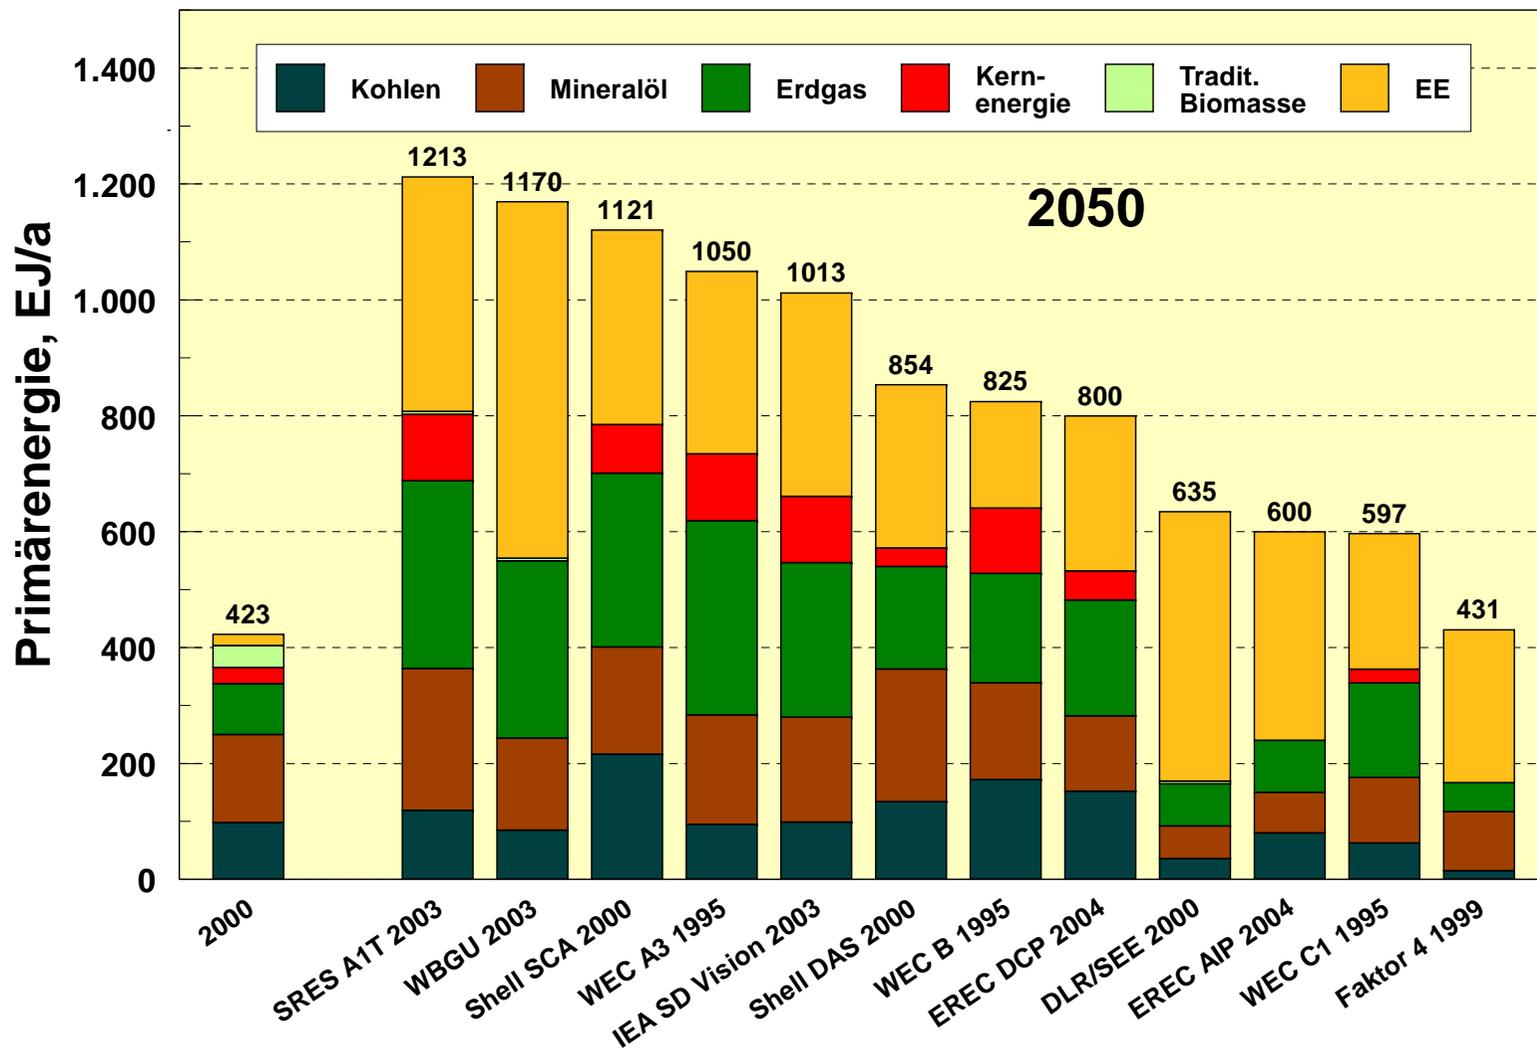

- badenova is the regional energy service company
- badenova is a public private partnership  
shareholders: 53% public, 33% city of Freiburg,  
20% communities of the region , 47% private  
(Thüga/eon)
- The needs of the clients are in the center of our  
company  
philosophy
- badenova has employees, that identify themselves  
deeply  
with the enterprise and its aims
- As ecologically oriented service company badenova stands  
for  
sustainability and efficient use of resources

# Preconditions for ecological acting

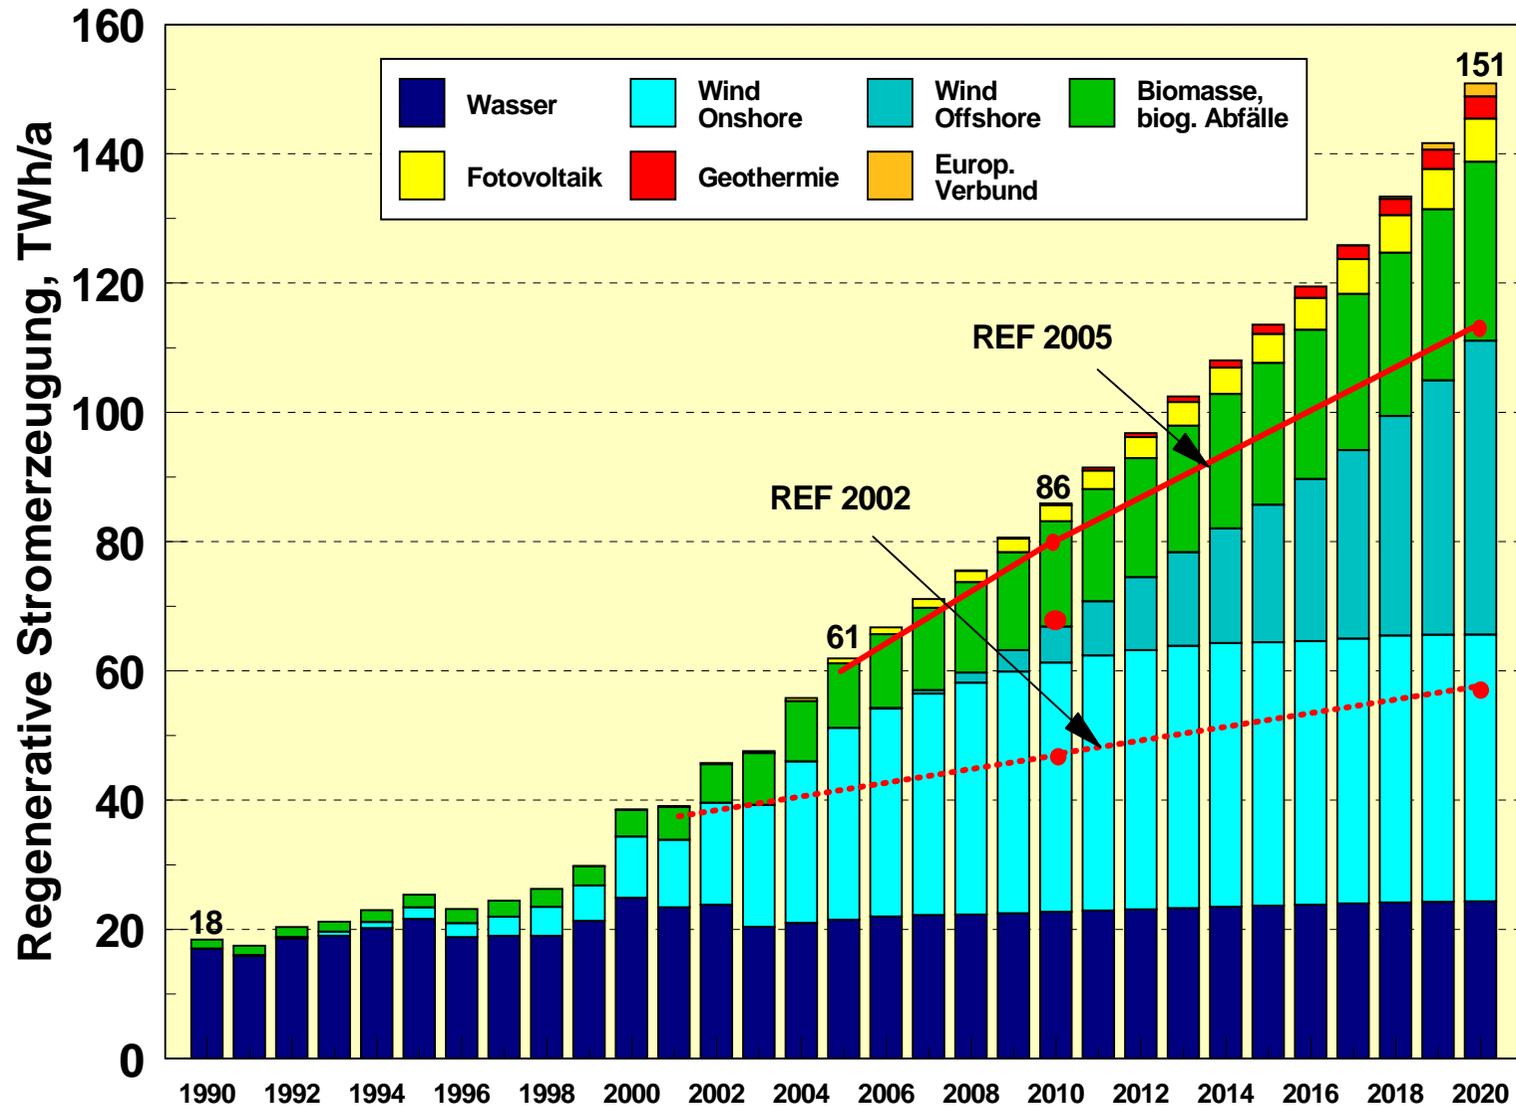

---

- **market and societal acceptance**
- **economics**

# The global energy supply of the year 2050 ist dominated by the use of renewable energies – in any of the scenarios made

# Renewable power generation until 2020 under the frame of EEG

# badenova acts ecologically responsible

- renewable energies
- Fund for Innovation in climate and water protection
- Support programs
- Shared ownership projects
- Contracting projects

# CO<sub>2</sub> -reduction ....

**Total yearly CO<sub>2</sub> reduction sums up to about 400.000 t/year i.e. emission of about 130.000 cars**

<b>Big cogeneration plants (WVK, KGW)</b>	<b>330.000 t/a</b>
<b>30 Small cogensets 5,5 kW bis 6 MW</b>	<b>30.000 t/a</b>
<b>regiostrom</b>	<b>12.000 t/a</b>
<b>regiowind</b>	<b>20.000 t/a</b>
<b>Solarthermie</b>	<b>2.500 t/a</b>
<b>regiosonne</b>	<b>1.000 t/a</b>
<b>„Erdgas jetzt“</b>	<b>12.000 t/a</b>
<b>„Tankeschön“</b>	<b>400 t/a</b>
	<hr/>
	<b>ca. 400.000 t/a</b>

# Fund for Innovation in climate and water protection

---

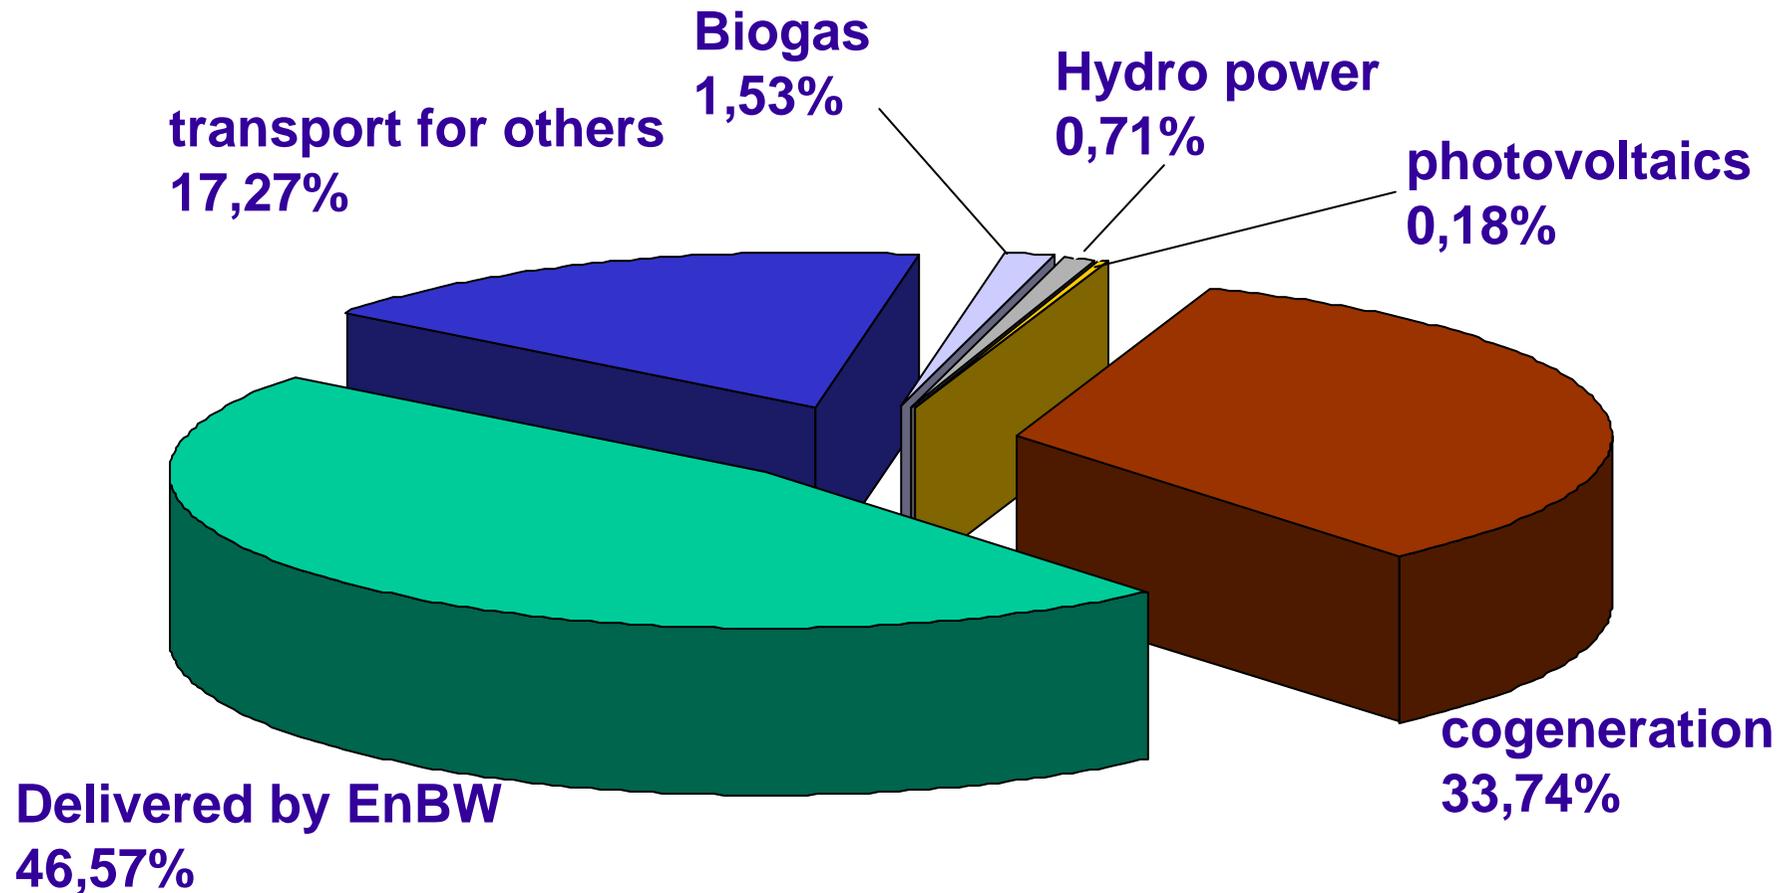

**9,76 Mio. € since 2001**

- **89 Projects supported**
- **About 54 Mio. € investments**

**So does it work:**

- **Based on a decision of our stakeholders annually 3% of the earnings (the last five years about 1,8 million €/year ) are put in this fund**
- **Each badenova-client may apply for funding**
- **Projects are evaluated and selected by an independent expert group**
- **Maximum support is 250.000 € per project**

# Electricity Mix in Freiburg

Total electric consumption 1.252 GWh

# regiostrom

Available fund regiostrom: ca. 600.000 € per year

Investment volume in the region: 10-15 Mio. € pro Jahr

regiostrom-Anlagen save 12.000 tons CO<sub>2</sub> per year

regiostrom-clients use 28.000 MWh electricity per year

**Jahr**

How it works :

- > 1,51 cts/kWh additional fee, administered in a certified fund
- > Money only spend for new installations in hydro power, biomass and solar
- > Regional value added

# regiowind: 20.000 t CO<sub>2</sub> reduction per year

## regiowind:

- 6 wind turbines in Freiburg each 1,8 MW
- 16,8 Mio. kWh electricity
- Investment 13 Mio. €

## regiowind plus:

- 2 Windkraftanlagen in Lahr/Seelbach each ,5 MW Leistung plus 200 kW PV
- 4,5 Mio. kWh electricity
- Investment 4,3 Mio. €

## regiowind St. Peter:

- 2 Windkraftanlagen each 2 MW Leistung
- 6 Mio. kWh electricity
- Investment 4,5 Mio. €

# Wind energy in Freiburg

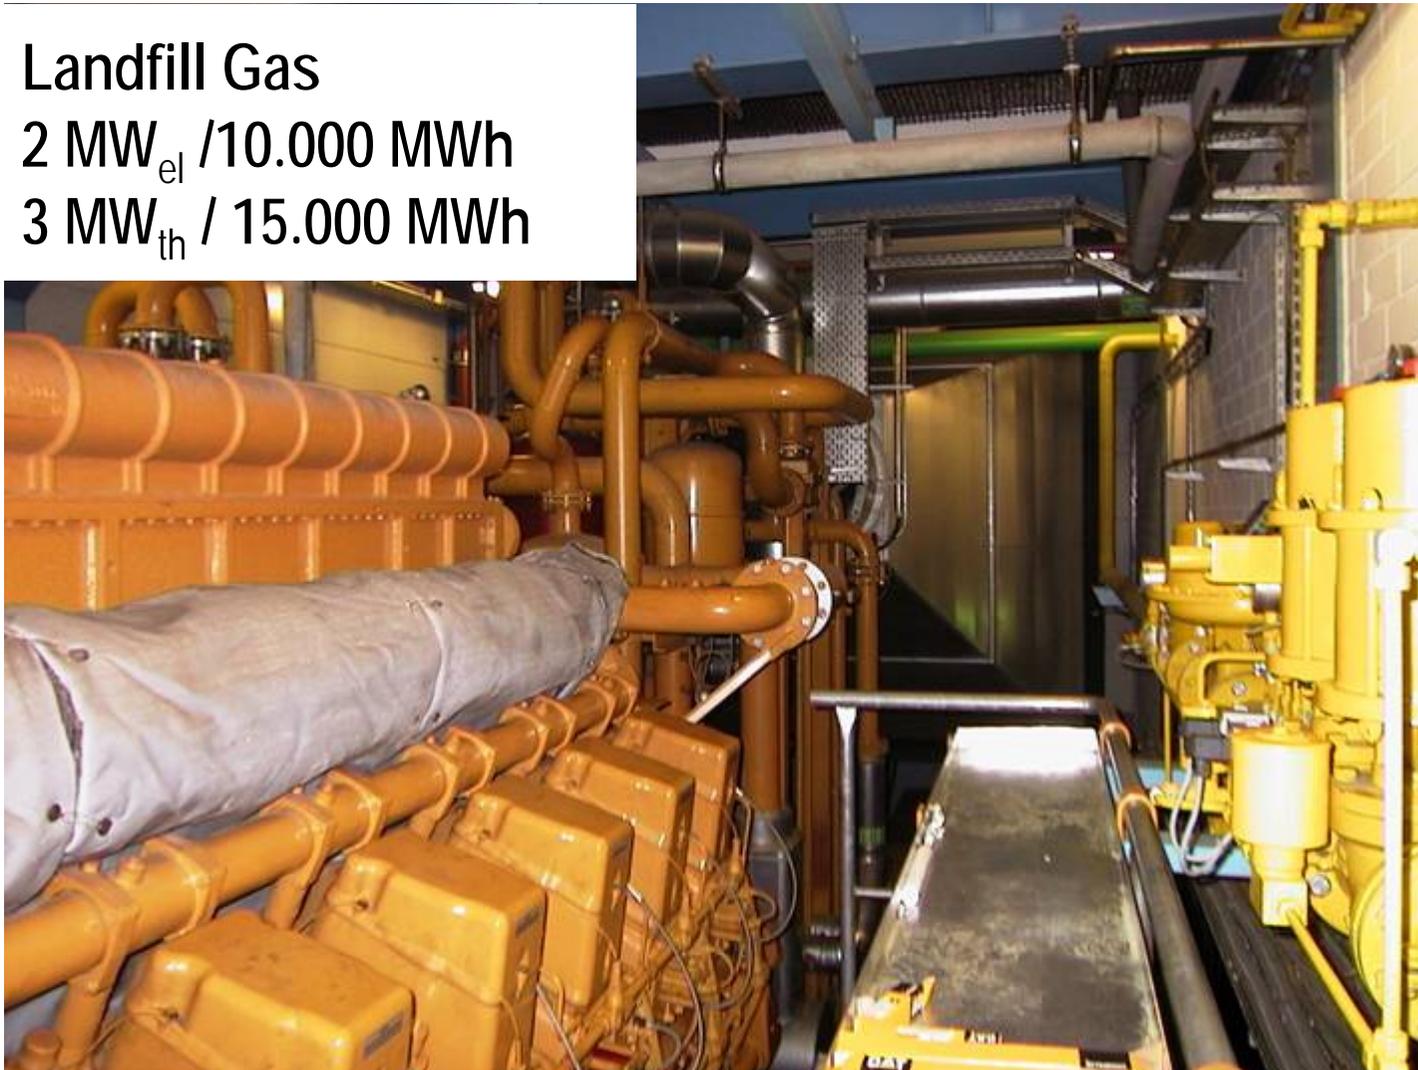

# Cogeneration Landwasser

Landfill Gas

2 MW<sub>el</sub> / 10.000 MWh

3 MW<sub>th</sub> / 15.000 MWh

# Bio-oil cogeneration at Solarfabrik in Freiburg

**Bio-oil-cogeneration set**

**Power el: 40 kW**

**Power th: 60 kW**

**Electricity: 200 MWh/a**

**Heat: 300 MWh/a**

# Wood-cogeneration Vauban in Freiburg

**Wood cogeneration plant**  
**350 kW el.**  
**2.300 kW th**

**Gas boiler**  
**2 x 2.500 kW th**

**Heat**  
**12.000 MWh/a**

**Electricity**  
**1.000 MWh/a**

**Wood consumption**  
**20.000 Sm<sup>3</sup>/a,**

# Wood pellets Spittelacker in Freiburg

---

## Pellet boiler

Clients: 61  
houses

Power: 400 kW

Heat: 630MWh/a

Pellets: 180 t/a

# Shared ownership PV project regiosonne

---

**New company founded by Sportclub Freiburg and  
badenova**

**aim: 8.000 m<sup>2</sup> solar modules on buildings of SC and badenova**

**5 Mio. € capital invested**

**1 Mio. kWh solar electricity**

**So does it work:**

**SC Freiburg and badenova founder and basic capital**

**public shares starting with 1.500 €**

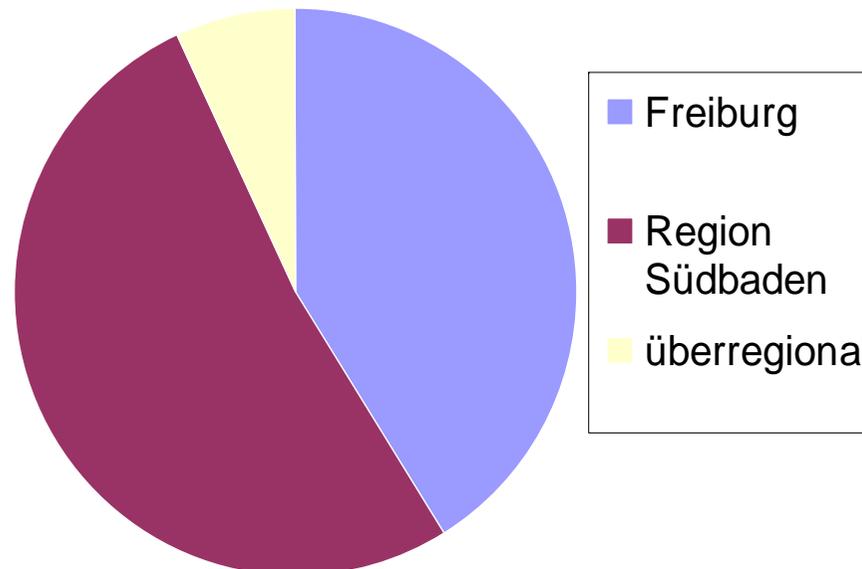

**Option for members and annual card holders of SC Freiburg**

**earning: 6,2 % /a with an assumed generation of 935  
kWh/kWp**

## Regional value added

**Solar modules:** Solarfabrik, Freiburg  
**Inverter:** Sunways, Konstanz  
**Installation:** Craftsmen of the region  
**Performance control:** Fraunhofer ISE, Freiburg
